

REC

S O L A R

COMPANY PROFILE

REC Solar is a division of Renewable
Energy Company (REC)

WHO WE ARE

Renewable Energy Company is a majority Black Women owned energy company. We specialise in **Solar Energy Technology** through our solar division **REC Solar**.

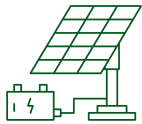

REC Solar is Situated in Kew, Johannesburg. We have been installing solar systems since 2014. We design, install and commission. We also maintain and repair components of the solar system like inverters.

OUR OFFERING

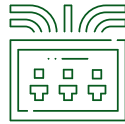

We offer a unique service to our clients. Our qualified technicians perform an energy analysis of the client's energy usage, based on that we then offer a solution unique to the client, considering all related factors.

OUR SOLUTIONS

**OFF-GRID
SYSTEMS**

**LOADSHEDDING
BACK-UP POWER**

**REDUCTION OF
ELECTRICITY COST**

Our aftersales support is like no other, we have technical teams that have over 30 years combined experience in grid-tied & off-grid solar systems. These teams can handle any issues that might arise. We source all our products from reputable suppliers who honour warranties and provide quality products. We offer a 3 year workmanship warranty.

REC Solar is an energy partner that guarantees quality, competency and reliability.

OUR COMMITMENT TO OUR CLIENTS

Provide expert personalised advice to allow all our clients to make an educated decision on whether renewable energy will be of benefit to them, for now, and the future.

WE INSTALL COUNTRY WIDE

We install Country wide including SADC Region Call or visit us to discuss the benefits of renewable energy. **Residential, Commercial and Rural systems.**

OUR SERVICES

As the world around us evolves, so does the science of customer-servicology. We at **REC Solar** understand that personalized customer experience heavily shapes the impact we have on our clients. We also pride ourselves in striving to always explore and identify money saving opportunities for our clients.

SALES

We supply a wide range of panels, inverters, energy storage systems and all peripheral componentry associated with solar power.

INSTALLATION

Our installation team is headed by Master Electricians with the skills and experience to deliver a quality installation relevant to your individual situation.

CONNECTION TO THE GRID

We take care of all grid-tied logistics, including

- Application to the lines company to connect to the grid.
- Installation of import/export meter.
- 3rd party, independent inspection to ensure installation confirms to the relevant standards.

**CUSTOMER SERVICE
IS THE NEW MARKETING.**

– DEREK SIVERS, FOUNDER CD BABY

KITSET SYSTEMS

Designed to suit your requirements.

Kitsets can include:

- ✓ Solar PV Panels
- ✓ Inverter
- ✓ Batteries
- ✓ Mounting Kits
- ✓ DC Cabling
- ✓ AC & DC Isolators
- ✓ Labels and MC4's
- ✓ Freight free Nationwide (T&C's apply)

PRODUCTS

- ✓ Trina Solar PV modules
- ✓ REC PV modules
- ✓ Solis, SolaX, Fronius grid-tied inverters
- ✓ Storion Smile 5 Inverter/battery system
- ✓ LG Chem battery storage
- ✓ Delta energy storage systems
- ✓ EV Wallpod chargers
- ✓ Plus many more solar & renewable energy products

VISION

To bring power to all the powerless areas of Africa. Through partnerships with various entities we will encourage the increased access to Solar Energy.

MISSION

- We will continue to improve our technical and services skills by providing training to our staff.
- We will become a knowledge base for technical and business information related to the solar industry in Africa.
- Maintain the high service levels to our clients.
